Car Color Changer

A fun and interactive way to explore endless car colors!

Sarath Saji
N01697947

Purpose: A quirky web application that allows users to:

01 ... Change the car's color randomly.

**02** ... Apply themed "mood" colors.

03 ... View a history of selected colors.

**04** ... Learn random, fun car color facts.

Technical Stack & Features

- HTML, CSS, JavaScript

- Fully responsive design for all devices.

Interesting Challenges

Smooth Animations: Ensuring seamless color transitions across all devices without lag.
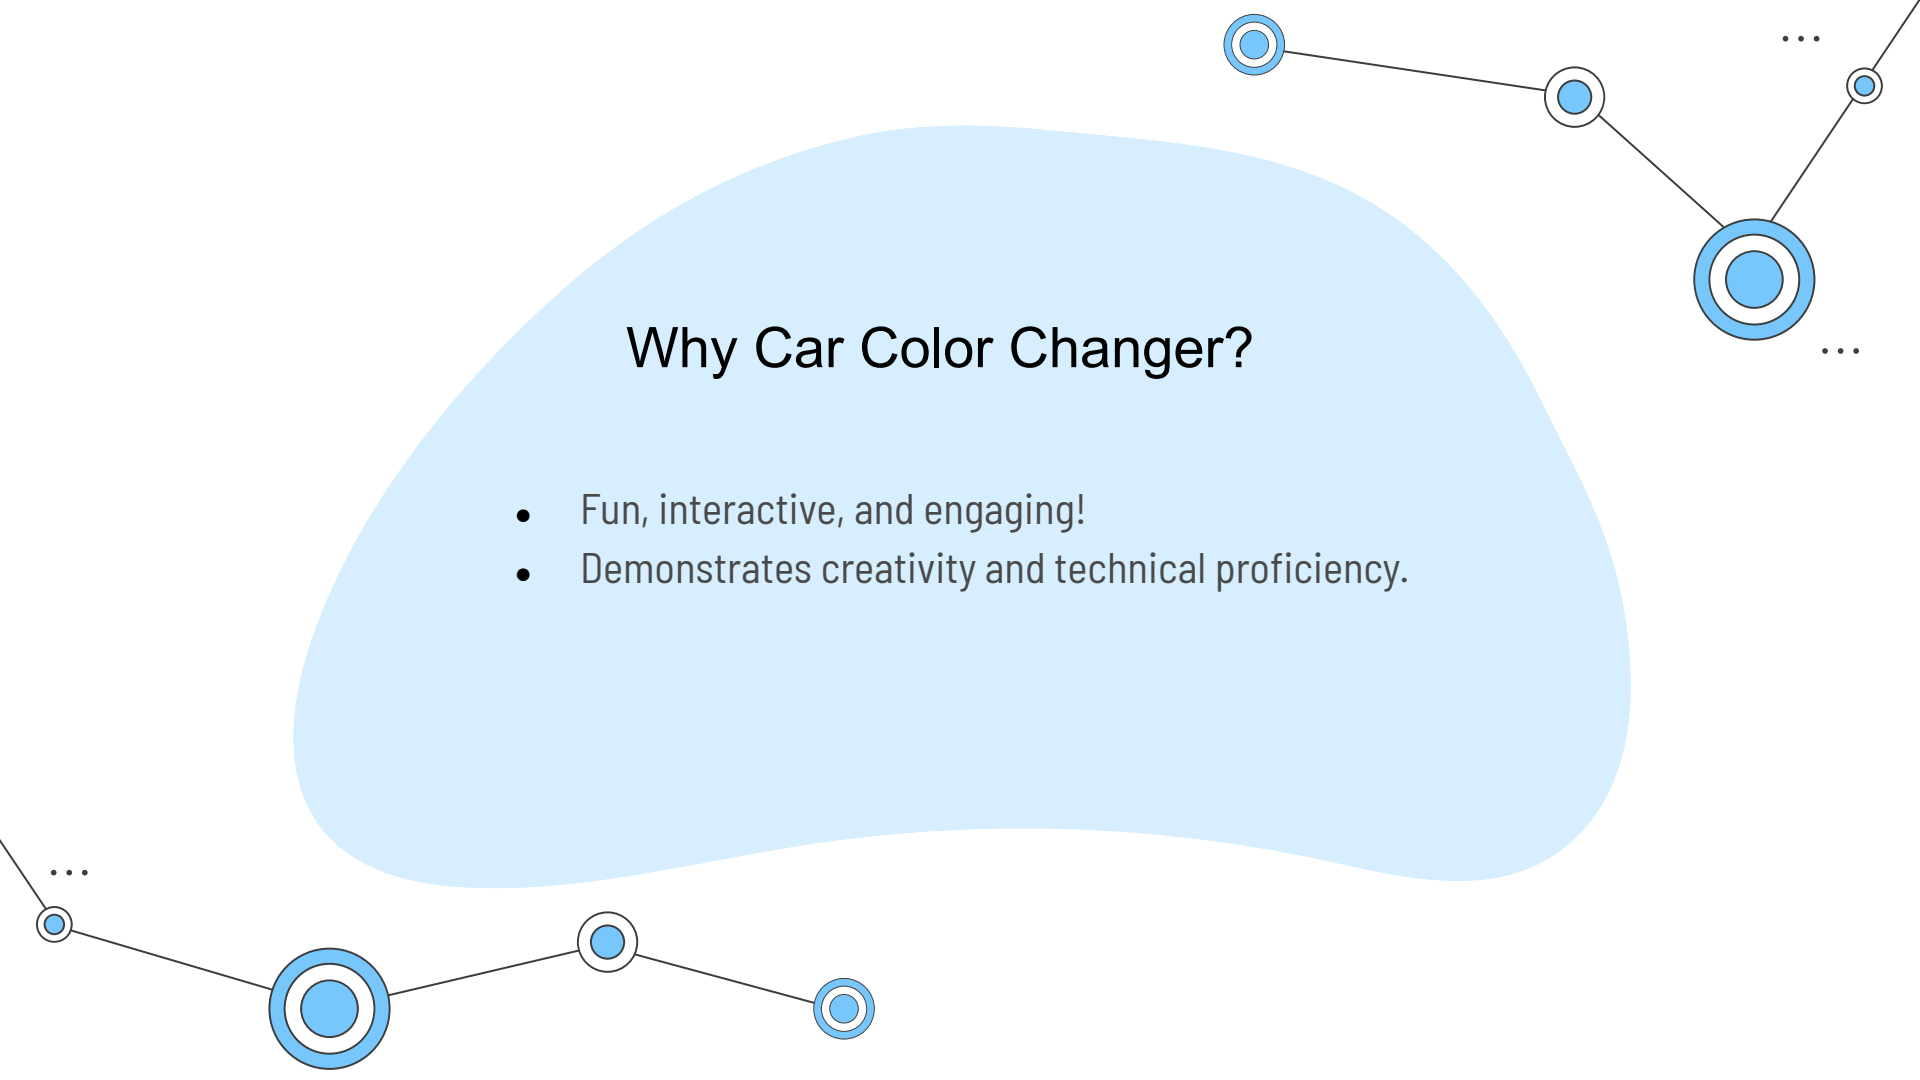

Mood-based Color Selection: Making sure the colors are consistent with the mood themes.

Responsiveness: Adapting the website layout and interactions for mobile, tablet, and desktop screens.

Fun Fact Uniqueness: Preventing repetitive facts from appearing consecutively.
